Energy storage battery group in Cebu, Philippines

Battery Energy Storage Systems have the potential to transform how commercial and industrial companies in the Philippines manage their energy needs. With benefits ranging from improved reliability, reduced costs, and increased efficiency, AboitizPower is leading the way in the development of these systems. In April 2023, AboitizPower started work on a battery storage project in Cebu, Philippines. The project, which will be built in phases, is expected to have a total capacity of 48 megawatts (MW) and will be used to support the local power grid. In July 2023, Meralco PowerGen Corporation (MGEN) announced that it would be developing a 49-megawatt (MW) Battery Energy Storage System (BESS) in Toledo, Philippines. The project, which is set to be completed in 2025, will be used to support the local power grid and will help to reduce the cost of electricity for consumers. In addition to these projects, AboitizPower is also involved in the development of other energy storage projects in the Philippines, including a 30-megawatt (MW) hybrid battery storage facility in Cebu and a 30-MW battery in the Cebu Economic Zone. The company is committed to continuing to invest in and develop energy storage technology in the Philippines, and is working to ensure that it remains at the forefront of this important industry.
