Somali Base Station Communication Project

Will Turkey build a satellite launch base in Somalia? MOGADISHU (SD) - The President of Somalia, Hassan Sheikh Mohamud, has announced that Turkey is planning to build a satellite launch base in Somalia, which will enhance Ankara's long-range missile testing program. Will Somalia build a rocket launch facility? Turkiye is approaching the final stages of building a rocket launch facility in Somalia, according to Somalia President Hassan Sheikh Mohamud. Speaking reportedly to Military Africa, Mohamud emphasized that the facility will provide significant job opportunities and revenue for the East African nation. Why is Turkiye building a space launch facility in Somalia? (Collage by Turkiye Today) Turkiye is planning to construct a space launch facility in Somalia, leveraging the country's proximity to the equator for efficient satellite launches. The project aims to enable Turkiye to launch satellites using domestically developed technology while advancing its rocket development capabilities. Why is Turkey launching a space station in Somalia? The Somali launch site is part of Turkey's broader aspirations to assert itself in the global space race, traditionally dominated by major powers. In , Turkey unveiled a 10-year space road map that includes plans for missions to the moon, establishing a spaceport, and developing advanced satellite systems. Why does Somalia need a launchpad for Turkish satellites? Somalia President Mohamud underlined the broader significance of Turkiye's investments, stating, "The importance of Somalia hosting a launchpad for Turkish satellites is even more significant than the billions of dollars and opportunities that the project will generate." Is Somalia a good place to launch equatorial spacecraft? Somalia is one of three ideal locations for equatorial launches, alongside Kazakhstan's Baikonur Cosmodrome and the launch complexes used by NASA and SpaceX in Florida, USA. The planned spaceport follows a maritime agreement between Turkey and Somalia, which signals a deepening of relations between the two countries. Erdogan's Somalia space base spotted from Apr 10, In need of satellites and ballistic missiles From information published prior to Turkey's talks with Somalia, Ankara had indicated it President Mohamud confirms Turkish satellite 4 days ago Mogadishu (HOL) -- President Hassan Sheikh Mohamud has confirmed that Turkey will establish a satellite launch base in Somalia, Turkey Reportedly Nearing Completion of Rocket Launch Facility in Somalia Jan 26, The flight test of Turkey's probe rocket developed with hybrid engine technology conducted in northern Sinop province, Turkey, on July 19, .
