## Special Generator Container

Our Containerised Generators are ideal for exposed locations, marine environments, and oil and gas applications, offering long-term durability, enhanced security, and reduced maintenance thanks to their sealed, self-contained design. Container generator CONTAINERS or SHELTERS equipped with light system and auxiliary outlets, heaters with thermostat, motor-driven grids. High quality solution Special Generator Equipment Containers Nov 12, Our catalogue includes Waste container, Modular housing container and Customized special equipment container. High quality Generator Container Product Advantages Container Function Service Process CIMC Tlc|Ryc Generator Container-1 Introduction CIMC Tlc|Ryc Generator Container-2 Introduction Anti-vibration frame design: The load-bearing components such as the generator container column, top and side plates are rigidly connected, and the frame is fully welded, which fully meets the mechaFire protection design: meet the strict protection of up to 2 hours. Sound insulation design: The commonly used generator boxes are made of sound insulation Anti-vibration frame design: The load-bearing components such as the generator container column, top and side plates are rigidly connected, and the frame is fully welded, which fully meets the mechaFire protection design: meet the strict protection of up to 2 hours. Sound insulation design: The commonly used generator boxes are made of sound insulation materials, and are equipped with rock wool boards and galvanized mesh panels. Dust-proof design of inlet and outlet: Standardized filtration system is provided, and ventilation filters can be installed at the inlet and outlet, which can be flexibly disassembled.
